

# Long Sentence

## Writing Solutions Guide

### *How to Use This Guide*

This guide provides specific solutions for writing issues detected by the DocScanner AI system. When the AI flags a writing issue, refer to this guide for step-by-step solutions.

### *Common Issues Detected*

- Sentences over 25 words
- Complex compound sentences
- Run-on sentences

## Solutions

### Solution 1: Sentences Over 25 Words

**Issue:** Sentence contains too many words, making it hard to follow

**Solution:** Break into shorter, focused sentences

**Before (Incorrect):**

To configure the system, you must first access the control panel, then navigate to the settings menu, select the appropriate options, and finally save your changes before exiting.

**After (Correct):**

To configure the system, first access the control panel. Navigate to the settings menu and select the appropriate options. Finally, save your changes before exiting.

**Best Practice:** Keep sentences under 20 words for technical documentation

**Why This Matters:** Shorter sentences improve comprehension and reduce cognitive load

### Solution 2: Complex Compound Sentences

**Issue:** Multiple ideas joined with conjunctions create confusing sentences

**Solution:** Separate complex ideas into individual sentences

**Before (Incorrect):**

Click the Start button and wait for the system to initialize, but if errors occur, check the log files and restart the process.

**After (Correct):**

Click the Start button and wait for the system to initialize. If errors occur, check the log files. Then restart the process.

**Best Practice:** One main idea per sentence for technical instructions

**Why This Matters:** Clear separation of ideas prevents confusion in procedures

## Quick Reference

Use this section for quick lookup when fixing issues:

Problem	Quick Fix
Sentences Over 25 Words	Break into shorter, focused sentences
Complex Compound Sentences	Separate complex ideas into individual sentences
